

# Snowmass 1999 Fusion Summer Study Survey Results

The results of the survey sent to the participants of the 1999 Fusion Summer Study are presented below. A total of 111 responses were received (approximately 33% of participants in the study).

This report shows the question that was asked and provides a graphical representation of the results. In a number of areas, individuals commented on various topics. Those have not been reported here.

The organizing committee would like to thank all of those participants who contributed their input to this survey. This information will be used to improve the process.
