Princeton University pledges a strong commitment to involving small and socioeconomically disadvantaged business concerns in the operation of the Princeton Plasma Physics Laboratory (PPPL). Princeton University supports the socioeconomic objectives of the U.S. Government and recognizes that diversity in subcontracting provides a vital link to the local community, strengthens the economy, and represents best business practices.

In keeping with the above commitment, Princeton University and the U.S. Department of Energy (DOE) have established the following Small Business Subcontracting Plan.

1. TYPE OF PLAN

This is an Individual Contract Plan, which covers the entire contract period (including option periods), applies to a specific contract, and has goals that are based on the Offeror's planned subcontracting in support of the specific contract (except that indirect costs incurred for common or joint purposes may be allocated on a prorated basis to the contract).

This Individual Contract Plan is for FY2019. PPPL's small business goals are set for each fiscal year of the Contract.

2. GOALS

PPPL has established separate dollar and percentage goals for Small Business [SB, including Alaska Native Corporations (ANC) and Indian Tribes], Veteran-Owned Small Business (VOSB), Service Disabled Veteran-Owned Small Business (SDVOB), HUBZone Small Business (HUBZ), Small Disadvantaged Business (SDB), Women-Owned Small Business (WOSB) concerns, as subcontractors, as specified in FAR 19.704.

Subcontracting goals for the six (6) small business concern categories are defined below.

- a. The total estimated dollar value of all planned subcontracting (to all types of business concerns) under this contract is \$35,770,866.
- b. The following percentage goals (expressed in terms of a percentage of total planned subcontracting dollars) and associated dollars are applicable to the contract cited above and will be pursued on a best effort basis consistent with good commercial practices and best value assessments:
 - i. Award 45% to Small Business (SB) concerns, estimated at \$16,096,890;
 - ii. Award 3% to Veteran-Owned Small Business (VOB) concerns, estimated at \$1,073,126 [this percentage is included in the percentage shown under b. (i) above as a subset];
 - iii. Award 3% to Service-Disabled Veteran-Owned (SDVOB) concerns, estimated at \$1,073,126 [this percentage is included in the percentage shown under b. (i) above as a subset];
 - iv. Award 3% to Historically Underutilized Small Business (HUB) concerns, estimated at \$1,073,126 [this percentage is included in the percentage shown under b. (i) above as a subset];
 - v. Award 5% to Small Disadvantaged Businesses (SDB) concerns, estimated at \$1,788,543 [this percentage is included in the percentage shown under b. (i) above as a subset];
 - vi. Award 5% to Woman-Owned Small Business (WOB) concerns, estimated at \$1,788,543 [this percentage is included in the percentage shown under b. (i) above as a subset].
- c. Indirect costs have not been included in the dollar and percentage subcontracting goals stated above.
- d. PPPL will ensure timely payment of amounts due pursuant to the terms of its subcontracts with the six categories of small businesses.
- e. To achieve the above stated goals, PPPL will employ the following subcontracting strategies:
 - i. Preference will be given to small business for purchases with an estimated value greater than \$3,500 up to \$150,000, where there is a reasonable expectation that offers are competitive as to price, quality, and delivery.
 - ii. For awards in excess of \$150,000, every effort will be made to utilize small business concerns.

- iii. To further facilitate the Small Business Program, PPPL will, in accordance with Chapter 19 of the DOE Acquisition Guide, without further sole source documentation to the file, and based upon its unilateral discretion, utilize the option of making awards without competition: (1) for purchases valued up to \$50,000 to small business concerns; or (2) for purchases up to \$6.5 million for manufacturing and up to \$4.0 million for goods and services to small, disadvantaged firms. PPPL shall assure that awards are to be made at fair market prices.
- iv. PPPL will utilize HUBZone set-asides and sole source methodologies in the award of subcontracts provided the acquisition meets requirements of FAR 19.1305 and FAR 19.1306(a).
- v. PPPL will utilize SDVOB set-asides and sole source methodologies in the award of subcontracts provided the acquisition meets requirements of FAR 19.1405 and FAR 19.1406(a).
- vi. PPPL will seek to establish and foster long-term business relationships with small business under the DOE Mentor-Protégé Program to the extent permitted by available resources; and in so doing, in accordance with the provisions of DEAR 919.70, award noncompetitive subcontracts of any dollar value to its Protégé, subject to the best commercial practices and procedures required by DEAR 970.4402-2(d).
- vii. PPPL will utilize small business or small disadvantaged set-asides in the award of all subcontracts for construction services with an estimated value less than \$4.0 million.
- viii. PPPL will employ, to the maximum extent practical, leveraged purchasing agreements awarded by the DOE Contractor Integrated Contractor Purchasing Team (ICPT) to small business, or those ICPT agreements which allow for the participation of small business partners as value added resellers.
- ix. PPPL will issue single source awards to the protégés of official DOE approved Mentor-Protégé Agreements.
- x. As a part of the White House Small Business initiative and at the invitation of the DOE-Office of Small Disadvantage Business Utilization (OSDBU), PPPL will attend the Department's Business Opportunity Sessions (BOS), if feasible.
- xi. PPPL will continue to partner with DOE to meet these goals and further increase small business outreach.
- xii. PPPL will continue to foster financial stimulation to small businesses by incorporating Net 15 payment terms in all awards to small businesses.
